

On Christmas night two thousand years ago God's love came down to people on Earth. Today we are experiencing this fact anew - purified and reborn by the Grace of God.

Gathering at the altar, we are witnesses, as the mystery of the Bethlehem grotto reveals again – Love is born, and Christ shares Himself with us.

Let us do not fear to accept this love. It will give us much more perfect happiness, than work, leisure or the money the world gives us the world altogether. Happiness poured by life of God's love much more perfect.

This is, what we are praying for all of us in this holy and miraculous time, when additionally we celebrate 350th anniversary of St.Vincent's and St.Louise birth for Heaven and being in the treshhold of reconfigaton of organization of Vincentian Provinces in the United States.

We pray, that we all will open our hearts wide allowing God's True Love to dwell in our hearts and families forever.

Have blessed Christmas and happy New 2010 Year
