

# Reflection and Dialogue

## St. Vincent de Paul and 'creative love'

1. Instead of becoming immobilized (I can't do anything more), are there other ways "to be present" to people, other ways "to serve"?
2. As we analyze the causes of the new forms of poverty, how can we be creative as we confront these various situations?
3. Christians know that the Spirit is at work in the heart of humankind. Do we have the courage to reflect on and to examine our behavior, and see the inconsistencies in our activity?
